Railroad Needed To Yukon Valley,

The estimated value of the gold pro duced in the Alaska portion of the Yukon basin in 1912, was \$8,645,000, compared with \$9,050,000 in 1911. This decrease is due to the falling off of the output from the Fairbanks and Hot Springs districts, for the other Yukon camps either held their own or somewhat increased their output, compared with the preceding year.

The Fairbanks district continues to

be the largest producer of placer gold in the Yukon country. It can not maintain this position long, however, without a radical change in mining conditions which will make it possible to exploit profitably its extensive bodies of lowwhich the first year of her life was all grade placers.
